# Sunbeam® Heater

## Instruction Leaflet

PLEASE READ AND SAVE THESE IMPORTANT INSTRUCTIONS

# PLEASE READ AND SAVE THESE IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. Read all instructions before using this heater.
2. This heater is hot when in use. To avoid burns, do not let bare skin touch hot surfaces. If provided, use handles when moving this heater. Keep combustible materials, such as furniture, pillows, bedding, papers, clothes, and curtains at least 3 feet (0.9 m) from the front of the heater and keep them away from the sides and rear.
3. Extreme caution is necessary when any heater is used by or near children or invalids and whenever the heater is left operating and unattended.
4. Always unplug heater when not in use.
5. Do not operate any heater with a damaged cord or plug or after the heater malfunctions, has been dropped or damaged in any manner. Discard heater, or return to authorized service facility for examination and/or repair.
6. Do not use outdoors.
7. This heater is not intended for use in bathrooms, laundry areas and similar indoor locations. Never locate heater where it may fall into a bathtub or other water container.
8. Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Do not route cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.
9. To disconnect heater, turn controls to off, then remove plug from outlet.
10. Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the heater.
11. To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked.
12. A heater has hot and arcing or sparking parts inside. Do not use it in areas where gasoline, paint, or flammable liquids are used or stored.
13. Use this heater only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock, or injury to persons.
14. Always plug heaters directly into a wall outlet/receptacle. Never use with an extension cord or relocatable power tap (outlet/power strip).
15. When unplugging, be sure to pull by the plug and not the cord.
16. If the heater will not operate, see specific instructions on Auto Safety Shut-off.
17. DO NOT attempt to repair or adjust any electrical or mechanical functions on this unit. Doing so will void your warranty. The inside of the unit contains no user serviceable parts. All servicing should be performed by qualified personnel only.
18. Discontinue use if plug or outlet is hot. It is recommended that the outlet be replaced if plug or outlet is hot to touch.
19. The heater must not be located immediately below a socket-outlet. Do not use this heater in the immediate surroundings of a bath, a shower or a swimming pool.  
**NOTE: THIS UNIT IS FOR FLOOR USE ONLY.**
20. **CAUTION:** In order to avoid a hazard due to inadvertent resetting of the thermal cutout, this appliance must not be supplied through an external switching device, such as a timer, or connected to a circuit that is regularly switched on and off by the utility.

## SAVE THESE INSTRUCTIONS

**THIS APPLIANCE HAS A POLARIZED PLUG (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician to install the proper outlet.**

**DO NOT ATTEMPT TO MODIFY THIS PLUG OR DEFEAT THIS SAFETY FEATURE IN ANY WAY.**

# FEATURES - OPERATIONS

## TECHNICAL SPECIFICATIONS

- Amps: 12.5
- Wattage: 1500W (+5% -10%)
- Working voltage: 120V AC/60Hz

## REMOTE CONTROL

Your heater comes with a remote control, unpack the remote control from box. This includes one lithium battery, CR2025/3V. Please note this remote control will not work through walls. Remove battery before discarding the remote.

**NOTE:** REMOVE THE PROTECTIVE COVER FROM THE BATTERY PRIOR TO BEGINNING OPERATION.

### Battery Replacement

1. Locate the battery compartment on the back of the remote control handset. Insert a small object (such as a pin or paper clip) into the hole of the battery cover lock (see Figure 1) and slide out the battery cover.

Figure 1

2. Remove old battery.
3. Place new battery into battery compartment.
4. Slide battery compartment into the remote control handset until the Battery Cover Lock is securely latched.
5. For your convenience, a remote control holder is integrated into the back of the heater housing.

## NOTES:

- Remove the battery from the equipment when it is not being used for an extended period of time.
- Remove the used battery promptly.
- Do not discard used batteries into household trash containers. Contact your local government for disposal or recycling practices in your area.

## OPERATING INSTRUCTIONS

1. Carefully remove your heater from the box. Please save the carton for off-season storage.
2. Place heater on a firm, level surface.
3. Plug heater into a standard outlet. Once plugged in, the Power Light will illuminate.

**NOTE:** Avoid overloading your circuit by not using other high wattage appliances in the same outlet. At 1500 watts, this unit draws 12.5 Amps.

### Mode Control

Press the Mode Button (⏻/Mode) on the control panel to select your desired heat settings. Each press of the button will cycle through the below settings and the selected setting will appear on the LCD. To operate with the remote control, first press the Power Button (⏻) on the remote and then press the Mode Button to cycle through the below settings:

#### HI - HIGH Heat

The heater will run continuously at 1500W.

#### LO - LOW Heat

The heater will run continuously at 750W.

#### EC - Heat & Save® Setting

The heater will now cycle between high (at 1500W) and low (at 750W) heat settings to provide heat.

# FEATURES - OPERATIONS

## Thermostat Control

The next press of the Mode Button (⏻/Mode) will activate the thermostat setting, and the LCD will display "27°" as the default temperature setting.

Your heater is equipped with a digital thermostat that allows you to set your heater to a precise comfort level (18°C-30°C) by pressing the Up (▲) and Down (▼) Button on the control panel or remote control. The LCD Display will show the selected temperature reading. When the preset temperature is reached, the heater will shut off and cool down for 10 seconds. When the room temperature drops below the preset temperature, the heater will automatically turn on again to maintain the preset temperature level.

## FrostProtect® Setting

Your heater is equipped with **FrostProtect®** setting. The heater will turn on automatically when the room temperature drops below 5°C. To activate FrostProtect® setting, press the Down (▼) Button until the LCD Display show "5" and the **FrostProtect® icon** (❄️) will appear on the LCD Display.

## FA - Fan Only

Press the Mode Button (⏻/Mode) again to activate Fan Only setting. The heater will run at fan-only operation without heat output.

**NOTE:** To shut unit off at any time, press and hold the Mode Button (⏻/Mode) on the control panel for 2 seconds or press the Power Button (⏻) on the remote control to shut off the heater.

**NOTE:** It is normal for the heater to cycle ON and OFF as it maintains the preset temperature. To prevent the unit from cycling, you need to change the thermostat setting. The digital thermostat has memory; it will remember the last temperature setting before the heater is turned off. However, if the heater is unplugged, the digital thermostat will no longer remember the previous temperature setting. You will need to reset the digital thermostat if the heater is unplugged.

**CAUTION:** FRONT GRILL IS HOT WHEN UNIT IS IN OPERATION.

## Set Timer

This heater is equipped with 24-Hour Auto Shut-off Timer feature. This allows you to program your heater to shut off automatically after running a defined time interval (from 0 to 24 hours).

1. Press the Timer Button (⌚) on the control panel once to activate the Timer.
2. Press the Up (▲) and Down (▼) button to adjust from **0** to **24** to select your desired time interval for the heater to shut-off automatically. The selected hour will appear on the LCD Display and the "Hr" icon will blink in 3 seconds to indicate that the selected timer is activated. The LCD Display will return to show the **preset temperature and mode setting**.
3. To cancel the Timer feature, press the Timer Button (⌚) twice within 5 seconds.

**NOTE:** The timer does not work with the FrostProtect® Setting.

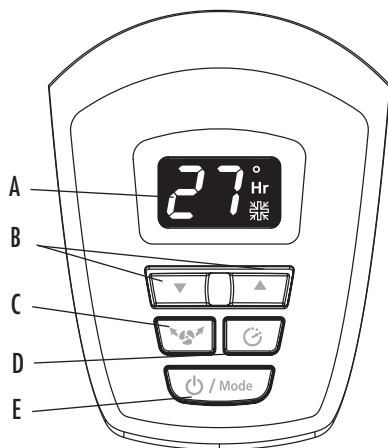

## Oscillation

Press the Oscillation Button (🌀) either on the control panel or remote control to activate or stop the oscillation feature.

**NOTE:** Please do not manually turn the heater on the base. It is designed to turn only by motorized oscillation.

## CONTROL PANEL

## REMOTE CONTROL

- A. LCD Display
- B. Up and Down Button
- C. Oscillation Button
- D. Timer Button
- E. Mode Button (⏻/Mode)

## CLEANING/MAINTENANCE

Always unplug the heater before cleaning and allow the heater to cool down.

1. Clean the unit with a soft cloth moistened with a mild soap and water solution.
2. NEVER use abrasive or flammable solvents to clean the unit.
3. After cleaning, be sure to completely dry the unit with a cloth or towel.
4. Store heater in a cool, dry location.
5. It is recommended that you store the unit in its original carton.

**TIP:** Over time, dust may accumulate on the front grills. This can be removed by wiping the unit with a damp cloth.

## AUTO SAFETY SHUT-OFF

This heater is equipped with a technologically-advanced safety system that requires the user to reset the heater if there is a potential overheat situation. When a potential overheat temperature is reached, the system will automatically shut the heater off. It can only resume operation when the user resets the unit.

## RESET INSTRUCTIONS

If your heater shuts down:

- 1) Unplug the unit and wait 30 minutes.
- 2) Plug in and operate normally.

**NOTE:** If the heater is plugged in again and Mode Button (⏻/Mode) is pressed within the 30-minute cool down period, heater will run at High Heat setting, but shut down in 2 seconds with the Power Light flashing. Please repeat the above 2 steps to reset the heater again and ensure to allow sufficient time for the thermostat to cool down.

# AUTO SAFETY SHUT-OFF

## TIP OVER PROTECTION

### Tip Over Shut-Off:

When the unit is accidentally knocked over, it will shut off. The unit may also shut off if it is moved or bumped. To reset, simply place the heater in an upright position, and it will operate normally.

**NOTE:** If unit does not turn on when placed in the upright position, press the Mode Button (⏻/Mode) on the control panel or press the Power Button (⏻) on remote control once and heater will resume operation.

## TROUBLE SHOOTING

### General Information:

**Environmental Factors** - There are a number of factors that will affect your desired comfort level. These factors can include insulation, open or drafty doors and windows, and outside temperature. Please check and take action if any of these potential problems are affecting your heaters ability to adequately warm your room.

**Supplemental Heat** - Portable electric heaters are intended for supplemental heating of rooms to heat the room you are in and turn down the central heat thermostat. They are not intended to replace central heating systems.

**Do NOT attempt to repair or adjust any electrical or mechanical functions on this heater. Doing so will void warranty. The inside of the heater contains no user serviceable parts. All servicing should be performed by qualified personnel only.**

# WARRANTY INFORMATION

## 1 YEAR LIMITED WARRANTY

Sunbeam Products, Inc. doing business as Jarden Consumer Solutions or if in Canada, Sunbeam Corporation (Canada) Limited doing business as Jarden Consumer Solutions (collectively "JCS") warrants that for a period of one year from the date of purchase, this product will be free from defects in material and workmanship. JCS, at its option, will repair or replace this product or any component of the product found to be defective during the warranty period. Replacement will be made with a new or remanufactured product or component. If the product is no longer available, replacement may be made with a similar product of equal or greater value. This is your exclusive warranty. Do NOT attempt to repair or adjust any electrical or mechanical functions on this product. Doing so will void this warranty. This warranty is valid for the original retail purchaser from the date of initial retail purchase and is not transferable. Keep the original sales receipt. Proof of purchase is required to obtain warranty performance. JCS dealers, service centers, or retail stores selling JCS products do not have the right to alter, modify or any way change the terms and conditions of this warranty.

This warranty does not cover normal wear of parts or damage resulting from any of the following: negligent use or misuse of the product, use on improper voltage or current, use contrary to the operating instructions, disassembly, repair or alteration by anyone other than JCS or an authorized JCS service center. Further, the warranty does not cover: Acts of God, such as fire, flood, hurricanes and tornadoes.

### **What are the limits on JCS's Liability?**

JCS shall not be liable for any incidental or consequential damages caused by the breach of any express, implied or statutory warranty or condition.

Except to the extent prohibited by applicable law, any implied warranty or condition of merchantability or fitness for a particular purpose is limited in duration to the duration of the above warranty.

JCS disclaims all other warranties, conditions or representations, express, implied, statutory or otherwise.

JCS shall not be liable for any damages of any kind resulting from the purchase, use or misuse of, or inability to use the product including incidental, special, consequential or similar damages or loss of profits, or for any breach of contract, fundamental or otherwise, or for any claim brought against purchaser by any other party.

Some provinces, states or jurisdictions do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights that vary from province to province, state to state or jurisdiction to jurisdiction.

### **How to Obtain Warranty Service**

#### In the U.S.A.

If you have any question regarding this warranty or would like to obtain warranty service, please call 1-888-264-9669 and a convenient service center address will be provided to you.

#### In Canada

If you have any question regarding this warranty or would like to obtain warranty service, please call 1-888-264-9669 and a convenient service center address will be provided to you.

# WARRANTY INFORMATION
